The imprint, run by Selvagem and Optimo Music, will focus on 'exquisite, overlooked Brazilian music.'

Brazilian duo [Selvagem](#) and [Optimo Music](#) will launch a new label called Selva Discos with a reissue of Maria Rita's cult album *Brasileira*.

A press release accompanying the label launch says *Brasileira* "has been on top of collectors' and music lovers' wishlists for the past couple of years, since "Cântico Brasileiro Nº3 (Kamaiurá)" broke out and cast a spell worldwide." Indeed, collector John Gómez started sourcing the music for the RA Recommended Music From Memory collection [Outro Tempo: Electronic And Contemporary Music From Brazil 1978-1992](#) after stumbling on a copy of Rita's rare 1988 LP in Japan.

The Selva Discos version is being carried out with the full cooperation of Maria Rita (full

name Maria Rita Stumpf)—she handled the liner notes and the reissue was remastered from the original DAT tapes. Selvagem, who have put out records for the likes of Beats In Space, Disco Halal and Disco Deviance, first linked up with Optimo's JD Twitch (real name Keith Mclvor) in 2005, and have DJ'd with Twitch and his partner Jonnie Wilkes several times in the years since. Selvagem's Augusto Olivani told RA he spoke with Mclvor about wanting to launch a label to reissue *Brasileira* at a RA In Residence party at [Sub Club](#) last year. Mclvor offered to partner on the venture then and there. The reissue of *Brasileira* is out in July.

Next up for Selva Discos is a Maria Rita remix 12-inch. Selvagem & [Carrot Green](#) remade "Cântico Brasileiro N°3 (Kamaiurá)" with Stumpf and *Brasileira* session musician Paulo Sergio dos Santos. The updated version is on the A-side with a remix of "Lamento Africano/Rictus" by [Joakim](#) on the B-side.

Listen to clips from *Brasileira*.
